We recently received a book from [Caramel Architekten](#). We previously featured four of their projects if you would like a taste of their work ([click here](#)). The book is presented in both German and English and offers a wonderful insight into their inspiration and range of work. Project Description: *Caramel architectural office was founded by the architects Gunter Katherl (1965), Martin Haller (1966), and Ulrich Aspetsberger (1967) in 2002. The office's motto is: For each project anew! Most construction contracts result from successful bids for both national and international competitions. Some projects were also awarded with prizes, e.g. reklameburo, Einfamilienhaus h, the Kaps farm extension, or the temporary info shop for European Capital of Culture Linz 09. As one of the major offices and no longer as a young architectural office but with a noticeable number of high scale buildings Caramel Architects coin the Austrian architectural landscape.*

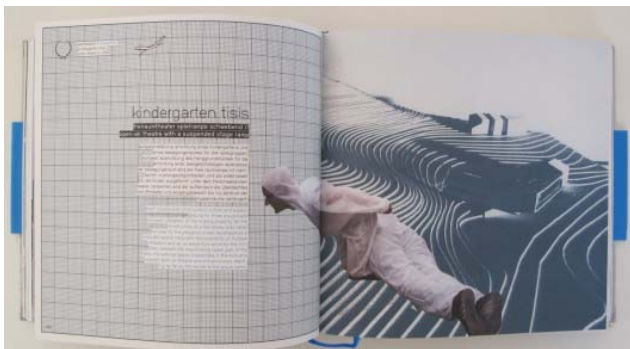

Contents

verganglich / transient

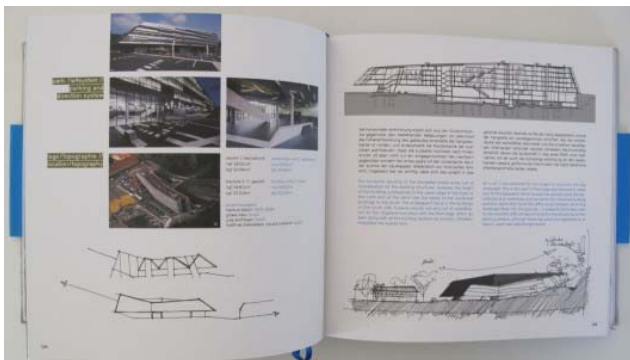

abgehoben / uplifted

schwarzbauten / in the grey zone

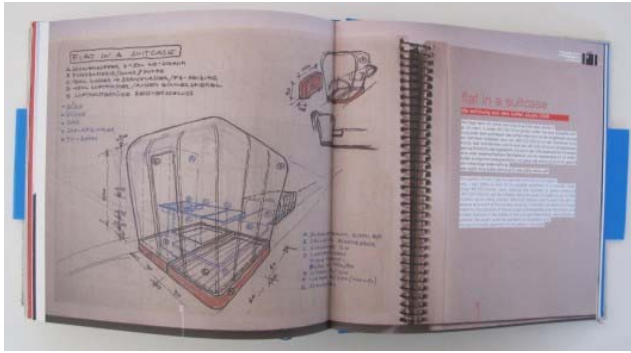

bodenständig / down-to-earth

luftschlosser / castles in the air

mobil / mobile

abspann / end titles
